THE VICTORY LIBERTY LOAN

The Government is asking for a spring billboard cleaning before the Victory Liberty Loan campaign begins. Hundreds of thousands of tattered old posters from former patriotic drives still cling to walls, windows and fences in the Seventh Federal Reserve district.

It is recommended now by the boards of the district and state loan organizations that citizens everywhere get their premises in order for the new loan. Great patriotic enterprisers, it is pointed out, was displayed by the people in offering window space, bill boards, the walls of hand-painted business buildings and other space for the posters of the Victory Liberty Loans and for the United Cross, United War Workers and other such campaigns. Positions such as amount of money could buy by advertising agencies in the course of peace-time propaganda, it is explained, were offered to the Government and to the anti-Government agencies helping to prepare for the armed forces.

Property owners and tenants allowed their places of business and residence to be plastered over with these bills.

Now, however, the patriotic gift of this space will not be complete until all old posters have been removed and everything made ready for the reception of the new posters that are now being printed at Washington for distribution. Some ten million of them will be sent out to the various districts. It is greatly desired by the authorities that no trace of former literature be left to compete with the appeal of the Victory Liberty Loan Posters. The old dirty posters have long since disappeared from regular billboards, but thousands of them are still in evidence in empty windows, on fences and building walls.

SENTENCE ITALIAN AND COLORED WOMAN FOR SLAYING

Mrs. Cecal Cavanaugh told Dominick Chillo to go out and kill her husband, Clifford. She loved Chillo and Chillo loved her. She is colored and he is Italian. Cavanaugh was sentenced to the penitentiary for a year and Chillo for four years. The story was told the jury. It was a story of both guilty and fixed punishment of the woman at four years in the penitentiary. Chillo will spend twenty years in the same place.

Many white gentlemen greatly delighted to mess up with Colored Women makes not the slightest difference to black, homely, and untidy they be and it seems that some Colored Women feel highly honored to mess up white gentlemen, even with their own. —Editor.

SOUTHERNERS SWEAR AT NEGRO SOLDIER WHO RETURNS WOUNDED FROM BATTLE FIELD OF FRANCE.

Denver, Colo., special.—Private James P. Campbell, 368th Battalion, 92nd Division, who was gassed at Champaign, August 18th, passed through St. Louis this week on his way to Chicago.

Campbell was returned to the United States, arriving in New York on November 8th.

He was taken to Camp Pike, December 27th. He says that when he arrived at Little Rock he was the only Negro in a party of eleven on their way to the base hospital. The whites were royally greeted by the Red Cross workers, who served food, but offered nothing to him. At the hospital he says the only greeting he received was from a nurse who said, "How do you feel now, little Nigger?"

Campbell's home is in Helena, Ark., where he went after leaving the hospital, but met nothing but sneers from the whites. He decided to leave home forever and after boarding a street car, a man who noticed his service stripes remarked, "There is another overseas Nigger. I guess he knows it all, we will have to kill some of them." "I felt safer in the trenches than in Arkansas," says Campbell, "and I never expect to return home."

Many of the whites in the South are still savages; they bitterly hate it, that the slaves were set free, and seemingly civilization or advancement will have to be shot into them. —Editor.

THE EIGHTH ILLINOIS REGIMENT WILL ARRIVE IN NEW YORK CITY, MONDAY FEBRUARY 10, AND IT IS EXPECTED THAT THE REGIMENT WILL LAND IN CHICAGO BY THE 15 OR 18 OF THE MONTH.

There was great rejoicing among the Colored population of this city and especially among the relatives, sweethearts and other admirers of the old Eighth Regiment, now the 370th U. S. Infantry, when it was definitely learned that the regiment was homeward bound, at least a portion of it, that it would arrive in New York city Monday, February 10, and land in this city the latter part of the week and be discharged at Camp Grant, later on.

THE PHALANX CLUB

The Phalanx gave a rousing program at The Peoples Movement hall last Sunday evening. The hall was crowded and speakers and singers were applauded to the echo.

The entire affair was of the highest intellectual order, and marks an epoch in the history of our Sunday gatherings where the church plays no doleful minor key. We must be more than spiritual and think less of dying and what we will do after death. The chief thought to dominate any progressive people is what life means to them, and what they are going to do to make life worth living.

The intellectual, and economical problems cluster all around our well being. The sober central thought of making ones self useful and helpful is the high note of harmony in the diapason of homied existence.

We are to live better in that proportion that we make life more agreeable, and where we accentuate the intellectual, and the comic we are making the world better to live in.

Attorney Timothy J. Fell, who occupies a fine suite of law offices on the eleventh floor of the Chamber of Commerce Building is an old friend of Alderman Louis B. Anderson, years ago or the first time that Lawyer Anderson, appeared in any of the courts in this City Attorney Fell, gave him a few pointers, putting him next or wise to some of the Court procedures, which was the foundation of the friendship existing between those two lawyers.

ATLANTIC CITY BARS ONE-PIECE BATHING SUITS

Atlantic City, N. J.,

Flesh colored stockings, bare legs, half hose, low necks, short skirts, and men's one-piece bathing suits are forbidden to women bathers here this year in a decree issued by the city commissioners.

It is well indeed that the city officials of Atlantic City have at last decided not to permit the dear sweet ladies to be in evidence on the bathing beach, in broad-day light, almost naked. — Editor.

Good Manners.

Some wise person has said that "good manners are surface Christianity," and an essential part of good manners is unselfishness, constant thought of others and study of the other person's viewpoint.

High and Low.

In model form an English inventor has succeeded in operating a railroad car that is raised above the track by the repelling force of electricity and drawn forward by magnets above it.

Don't Forget This.

According to an English scientist's estimate the world's total annual rainfall amounts to 29,457.4 cubic miles, of which less than one-fourth drains through rivers into the ocean.

Speak Up, Then.

Said the facetious teller, "You've all heard that old wheeze about hearing Pike Speak; but did any of you ever hear Jack and the Beans Talk?"

Uncle Eben.

"Some men find fault because dey're too wise," said Uncle Eben, "and others because dey ain't got 'sense enough."

Unreasonable.

"You are two-faced. You let another fellow kiss you." "Well, if I have two faces, what's your kick?"

Optimistic Thought.

He who knows nothing knows enough if he knows when to be silent.
